height: 100%;
margin: 0;
background-image: url("cloud.jpg");
background-size: cover;
background-repeat: no-repeat;
background-position: center;
}
</style>
</head>
<body>

<br><br>
<form method="GET" action="">
Name: <input type="text" name="name">
<input type="submit" value="Submit">
</form>
<?php
if(isset($_GET['name']))
{
$name = $_GET['name'];
echo "Hello, " . $name;
}
?>
</body>
</html>
```

Lab 2: Using POST Method

LAB 2: Using POST Method

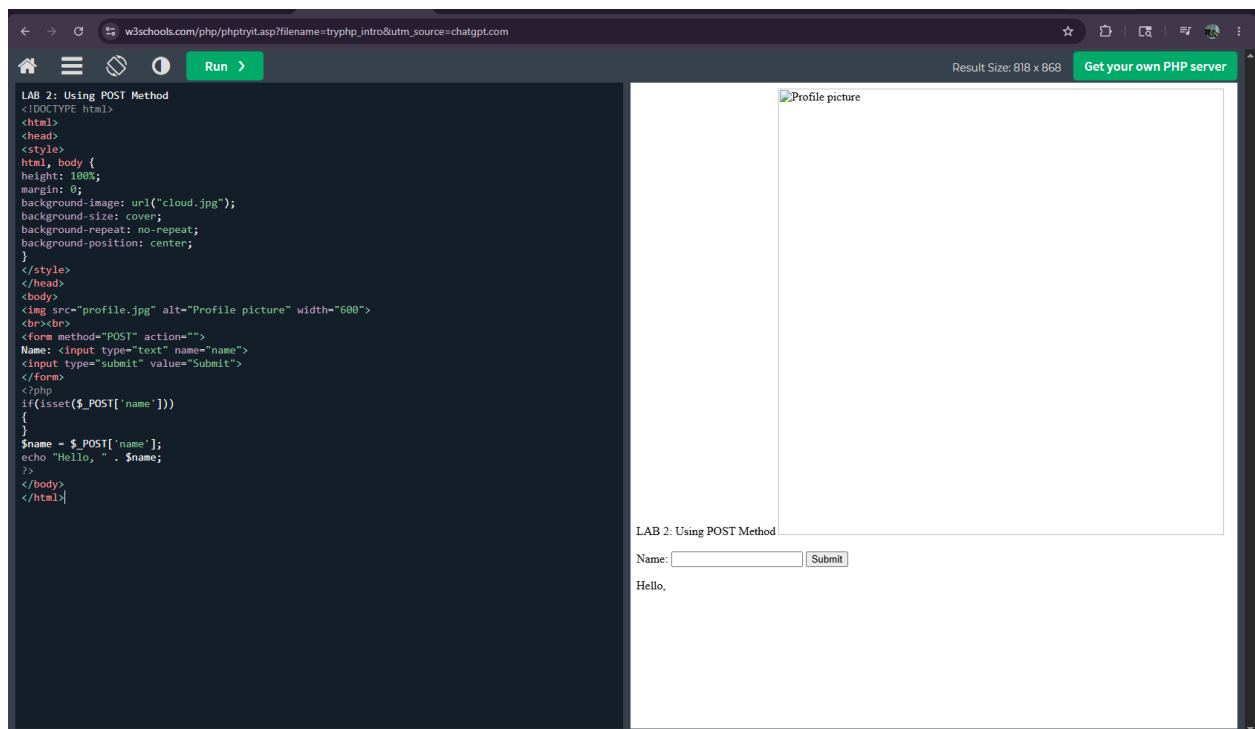

```
<!DOCTYPE html>
<html>
<head>
<style>
html, body {
height: 100%;
margin: 0;
background-image: url("cloud.jpg");
background-size: cover;
background-repeat: no-repeat;
background-position: center;
}
</style>
</head>
<body>

<br><br>
<form method="POST" action="">
Name: <input type="text" name="name">
```

```

<input type="submit" value="Submit">
</form>
<?php
if(isset($_POST['name']))
{
}
$name = $_POST['name'];
echo "Hello, " . $name;
?>
</body>
</html>

```

Lab 3: Multiple Inputs

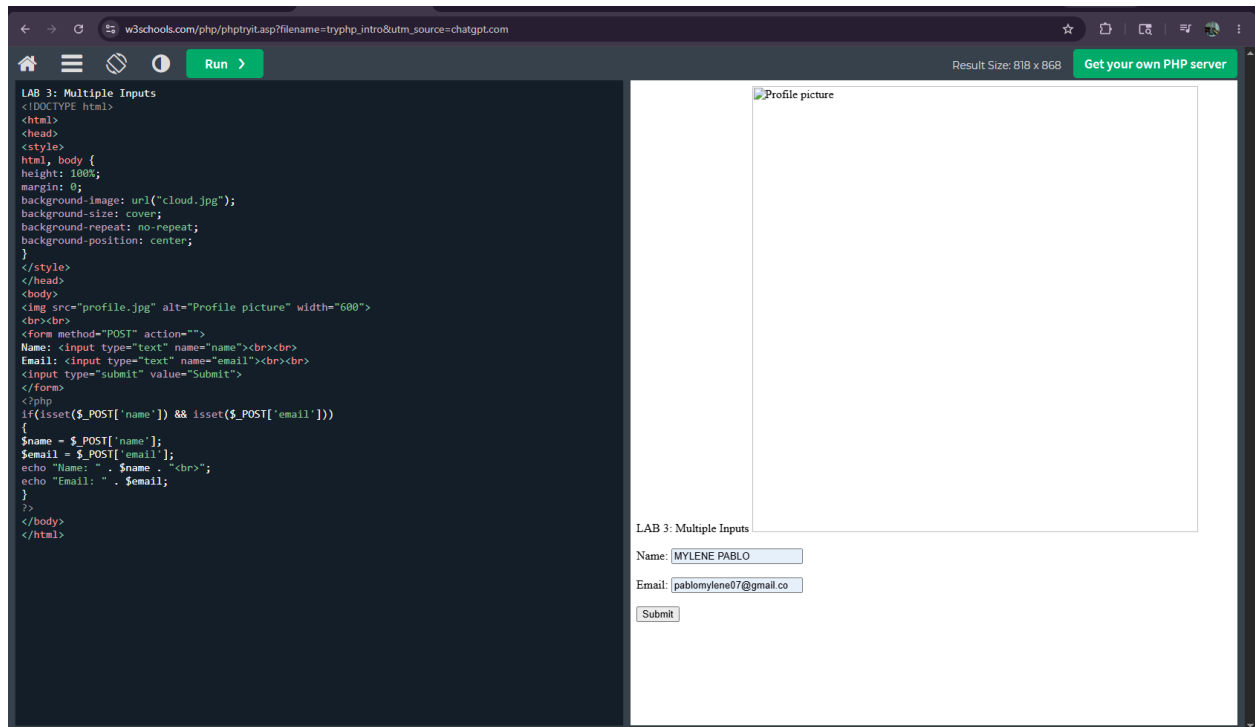

```

<!DOCTYPE html>

</html>

The screenshot shows a web browser window with a dark theme. The address bar shows a local file path. The page content is divided into two main sections. On the left, there is a preformatted code block showing the HTML and PHP code used to create the form and process the data. On the right, there is a form titled "Hobbies (Checkbox)". The form contains four checkboxes, all of which are checked: "Reading", "Gaming", "Sports", and "Music". Below the checkboxes is a "Submit" button. The PHP code on the left shows a POST request being handled, and the output of the script is displayed in the browser's console or output area.

```
